

Determined to deliver.

Southbase Construction is an established construction company committed to delivering commercial, industrial, educational, retail, tourism and multi-residential projects nationwide.

We partner with public and private sector clients on large scale builds, adding value through technology, construction methodology, buying power and expertise.

Our mandate is to deliver on time, on budget and above expectation. Through a partnership model we achieve success for everyone involved, from our valued clients, stakeholders, staff and sub-contractors right through to the communities of New Zealand.

We build buildings. We build relationships. We build outcomes for our country that everyone can be proud of.

**Southbase
Construction
is an ambitious
company with
a clear vision:
to have the
best delivery
track record
in the industry,
bar none.**

While our growing portfolio is our legacy, it is our people who make this vision possible. With experienced minds and fresh thinking, we build proactive partnerships with our clients and deliver outstanding buildings for our communities.

Founded in 2013, our business is backed by solid governance. We are led by a team of individuals who have been instrumental in shaping New Zealand's construction industry over the past 30 years. Under their guidance we deliver outcomes founded on our core values of agility, integrity, responsiveness, pride and safety. These values form the heart of our operation and everything we do comes back to them.

When you work with Southbase Construction you will find yourself partnering with people who are knowledgeable, innovative, agile and adaptable. We work with a refreshingly open book approach and direct communication style, to enable the delivery of your project beyond what you thought was possible.

Christchurch Bus Terminal

Completed 2016
Client CERA

Real partnership.

Great buildings come from people listening, understanding and respecting each other. Simply put, when others do well, we do well. At Southbase, we put partnership first, working collaboratively with our clients, stakeholders, suppliers and sub-contractors – and fostering a strong sense of teamwork within our own staff.

Real community.

As leaders in the construction industry, we recognise that we have a huge impact on our communities. We make decisions now that ensure the long-term enjoyment and functionality of the projects we build, by the people who use them every day. We look for ways to further support our communities through a range of initiatives as well as by providing a great place to work.

Realagility.

In an industry where time is expensive, we value the ability to think fast and act intuitively. Whether adapting to changing client needs, building to new standards or introducing the latest materials or technology, we are equipped to respond with immediacy and make empowered decisions through capable leadership.

Hagley Oval Pavilion

Completed 2014
Client New Zealand Cricket

Real transparency.

Through direct, honest communication and a true open book approach we foster the kind of trust in our clients that gets things done. Our commitment to transparency opens the door to productive working relationships and means our reputation is as solid as the structures we build.

Real capacity.

Since forming in Christchurch in 2013 we have grown to become one of the top construction companies in New Zealand. Our significant size and adaptable scale means we are resourced to deliver ambitious projects nationwide. Whatever the challenge, surety of delivery is underpinned by our open book process, responsive communication style, detailed planning and 'no surprises' policy.

The Crossing
Parking Building

Completed 2017
Client Carter Group

Real innovation.

Breakthrough thinking is one of our signature strengths. We continually strive for improved efficiency and quality on behalf of our clients. Where we can do things faster, better or more efficiently, we do. Our energy and fresh approach create construction outcomes that surpass our clients' expectations and set new standards for the industry.

Real capability.

With operations nationwide and the ability to scale up or down as required, we can provide the full services of a main contractor. Where projects require offshore materials or resources, we deliver through the committed support of our trusted – and trustworthy – suppliers. The end benefit to our clients is the ability to achieve significant, high-quality projects efficiently and professionally.

Realcare.

We are committed to taking a leadership position within the industry regarding Health, Safety and the Environment, ensuring zero harm for everyone who works on or visits our sites. We meet all relevant legislation and our 'Everyone Safe Everyday' system is so comprehensive that in 2016 we achieved ACC Tertiary Accreditation, putting us amongst the best companies in New Zealand for HS&E.

Real experience.

The heart of Southbase is made up of experienced people who have helped shape the New Zealand construction industry over the last 30 years. We are backed by a solid, well-respected governance team and our projects are led by managers who bring decades of relevant experience and knowledge to the table.

Real results.

Working together with our clients and partners we have successfully delivered a number of nationally significant projects across all sectors, from industrial and commercial to education and community. We are proud of the structures we've created, the relationships we've built along the way and the positive outcomes for the many people who use them every day.

Let's talk.

Now you've read about us, we want to hear about you. Whether you're a prospective client, stakeholder, partner organisation, supplier, team member, or something else – we want to know what it is you're looking for and how we can help.

Good things happen through open dialogue. And project delivery of a multi-million dollar build starts with the exchange of a few words.

Contact us, and let's get the conversation started.
